BE in Computer

Gujarat Technological University

2014 CGPA: 7.81

Work Experience

● Frontend Developer

Aug 2024 - Present

Macrotech Global

- Developed responsive, high-performance web applications for hospitality products, ensuring cross-device compatibility
- Built and customized kiosk-based web applications, delivering tailored UI/UX for different user segments
- Designed themeable booking engines with dynamic color schemes and layouts, enabling faster client customization
- Integrated REST APIs to fetch and manage dynamic data, improving real-time functionality and user experience
- Created UI for a cloud-based phone system admin dashboard, enhancing usability and navigation efficiency
- Applied AI tools for API integration, UI generation, and performance optimization

○ Senior Web Designer

Aug 2023 - Aug 2024

Zluck Solution

- Designed and developed responsive websites for multiple clients, ensuring cross-browser compatibility and consistent performance
- Collaborated with developers and stakeholders to deliver user-friendly, visually engaging interfaces
- Improved website load speed by optimizing images, reducing asset size, and writing efficient CSS/JS
- Enhanced SEO performance for web and mobile platforms, improving search visibility
- Converted pixel-perfect UI designs into custom WordPress themes using HTML, CSS, and JavaScript

○ Web Designer

Jan 2021 - Jul 2023

Sparkle Infotech

- Designed and developed websites using WordPress (Elementor, WPBakery, Oxygen Builder etc.) with SEO best practices
- Built mobile-responsive web pages and email templates from UI designs
- Created custom icons, assets, and UI mockups for client presentations
- Collaborated with clients to refine UI based on feedback, improving design quality and satisfaction
- Managed updates for website content and social media creatives
